SARL Welcome to the SARL Members-only Web!

As an SARL member, you will receive a membership card for the current year. Your card contains your name, the call sign under which your membership is registered, and your SARL Web password. This is the number printed directly under your call sign, e.g. "0015128". Type in the password **without** the leading "0's" (naught) ie: 15128

Use your call sign together with your password each time you access the Members-only portion of the SARL Web. Your password will only work with your own call sign. It is useless to anyone else.

If you've forgotten your password, just enter your call sign and the word HELP in the password field, and the website will automatically e-mail you your password.

Call sign: ie: ZS3CJL

Password: ie: 12345

Having trouble with the Members-only access?

If you have recently changed your call sign, please try both the old and new call sign, as changes may take some time to process. Your password will remain the same for both old and new call signs.

Some listener members of the SARL may have a hyphen within the call sign, eg. "Z56-999" or "Z5L-999". If you cannot log in with the call sign printed on your membership card, try logging in without the hyphen or vice versa.

Once you have signed in with your call sign and password you may visit any part of the SARL Web without being required to re-enter your password. However, you may need to log in again if you take a hyperlink out of the SARL Web to another web site and then return. You may also need to log in again if there has been no activity from you for a long period - something like 20 minutes or so!

The security system on the SARL Members-only Web relies on the use of temporary session cookies. You will not be able to access the Members-only Web if cookies are disabled on your browser.

If you still encounter problems, please email the web master at zs2ch@qwest.co.za

6. Check your email and log in to the SARL.
7. If you are not a member of the SARL, you can still use the SA-QSL system by applying for a password on the SA-QSL page. (www.sarl.org.za/saqs1) This is completely free, quick and easy to do. Once your callsign is varified, you will be e-mailed a password for the SA-QSL system. Use this to login from the SA-QSL main page. (Not the SARL home page)

Procedure to answer an electronic QSL on the SARL's Webpage

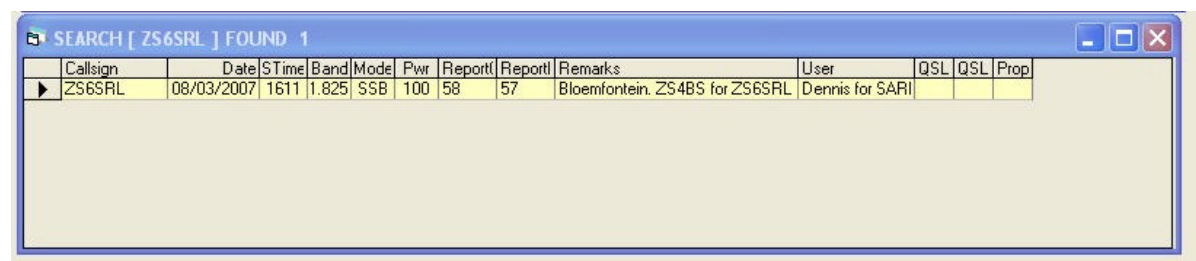

- If there are any outstanding QSLs waiting for you, you will see an envelope next to your Call Sign after you have log in.

- Click on this envelope and you will automatically be redirected to the page where you will be able to see all the outstanding QSLs

- Confirm the QSLs with your logbook. In this case we will search in the logbook for the Call Sign ZS6SRL to confirm this QSO

- Now we have confirmation that we had a QSO with ZS6SRL.

- Now we can “Accept” the QSL by clicking on reply and then click on “submit”. If you do not have confirmation you must click on “delete”

- You will now be redirected to a confirmation page that will tell you how many QSL you have successfully replied to.

- You can now click on “My Received QSLs” to verify that your new QSLs are listed.

- If you still have difficulties with the procedures you can contact the SARL webmaster, or post a request for help on the SARL forums.
